EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elizabeth Collard Richter on November 9, 2004.

The application has been amended as follows:

Claim 1, line 13,

-- portion;

wherein the lever retaining device is formed by an extension of one of the first and second portions, the extension comprising a first leg, a second leg pivotally and integrally connected to the first leg and an end section, such that folding the second leg over the first leg forms the lever retaining device and causes the end section to abut the top surface of the respective first or second --

has been inserted between "first" and "portion."

Claim 8 has been canceled.

The following is an examiner's statement of reasons for allowance: the prior art lacks motivation for altering the lever retaining device of Yiu et al. (U.S. Patent 6,514,027) in a manner that meets claim recitations, since a major structural reconfiguration would have been necessary.

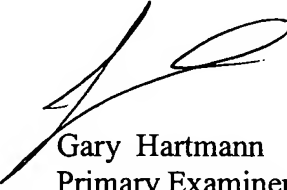

Art Unit: 3671

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 703-305-4549. The examiner can normally be reached on Monday through Friday, 9am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Will can be reached on 703-308-3870. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
